

PRODUCT DATA SHEET

GOLD PAINT

DESCRIPTION

UGL Gold Paint is a gold, leaf-finish coating for interior decorative use. Ideal for craft use, picture frames, toys, furniture trim, etc. UGL Gold Paint remains stable. It will not tarnish in the container.

PREPARATION

Surface to be painted should be clean and free from all dirt, dust, grease, wax, etc. Stir well before using and frequently during use.

APPLICATION

Apply evenly with a good, soft bristle brush. Brush on paint using minimum pressure, making sure the final brush strokes are made toward the previously applied paint. A second coat may be applied after 24 hours drying time. For spraying, reduce 10 percent with pure turpentine.

DANGER

Combustible. Do not use near fire, sparks or flame. Use only in well-ventilated areas. Keep flow of fresh air until all vapors (odors) are gone. Do not transfer contents to unlabeled containers. **KEEP OUT OF THE REACH OF CHILDREN.** Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal.

To avoid breathing vapors or spray mist, open windows and doors or use other means to ensure fresh air entry during application and drying. If you experience eye watering, headaches, or dizziness, increase fresh air or wear respiratory protection (NIOSH/MSHA TC 23C or equivalent) or leave the area.

COVERAGE

100-125 square feet per quart.

CLEAN-UP

Clean brushes with UGL Fastrip Brush Cleaner or turpentine. To avoid spontaneous combustion during temporary storage, soak soiled rags and wastes immediately after use in a water-filled closed metal container.

TECHNICAL DATA

% Non-Volatile by Weight- 44
% Non-Volatile by Volume -29
Consistency - 25 sec. Ford #4 cup at 77 degrees
Weight/Gallon- 9.21 lbs./gal.
